

A health savings account (HSA) allows you to save money for qualified medical expenses that you're expecting, such as contact lenses or monthly prescriptions, as well as unexpected ones — this year and for any future needs. It's a win-win for saving on health costs today, tomorrow, and even through retirement.

It's all yours until you spend it —even deposits made by others, like an employer or family

Enrolling in an HSA is quick and easy because it's built into your employer's benefits enrollment. Check your employer's enrollment materials for more information on how to sign up.
